

Health In Tech Expands Access to Virtual Care Through Collaboration with DialCare

STUART, Fla., March 25, 2025 /PRNewswire/ -- Health In Tech (Nasdaq: HIT), an Insurtech platform company backed by third-party AI technology, is pleased to announce a strategic collaboration with DialCare, a leading provider of telehealth and virtual care solutions. The collaboration aims to enhance access to quality, affordable healthcare by integrating DialCare's virtual primary care and behavioral health services into Health In Tech's dynamic suite of self-funded health plan offerings.

Through this collaboration, Health In Tech will integrate DialCare's services—including virtual primary care, therapy, and psychiatry—into its product offerings, members across the U.S. will benefit from streamlined, on-demand access to licensed providers via phone or video consultations.

"We're proud to partner with DialCare to bring their trusted virtual care solutions into the hands of our members," said Tim Johnson, CEO of Health In Tech. "Through this integration, employer groups with 10 or more lives can offer their employees convenient, affordable access to DialCare's telemedicine services—all seamlessly quoted and managed through our eDIYBS technology. This collaboration aligns perfectly with our mission to deliver smarter, more accessible healthcare solutions for diverse populations."

Members will benefit from access to licensed physicians, therapists, and psychiatric providers through DialCare's mobile app and web platform, helping address both physical and mental health needs with convenience and care.

Together, Health In Tech and DialCare are redefining how care is delivered: patient-centric, technology-enabled, and focused on scalable, sustainable outcomes for employers and employees alike.

Use of Forward-Looking Statements

Certain statements in this press release are forward-looking statements for purposes of the safe harbor provisions under the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements may include estimates or expectations about Health In Tech's possible or assumed operational results, financial condition, business strategies and plans, market opportunities, competitive position, industry environment, and potential growth opportunities. In some cases, forward-looking statements can be identified by terms such as "may," "will," "should," "design," "target," "aim," "hope," "expect," "could," "intend," "plan," "anticipate," "estimate," "believe," "continue," "predict," "project," "potential," "goal," or other words that convey the uncertainty of future events or outcomes. These statements relate to future events or to Health In Tech's future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause Health In Tech's actual results, levels of activity, performance, or achievements to be different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond Health In Tech's control and which could, and likely will, affect actual results, levels of activity, performance or achievements. Any forward-looking statement reflects Health In Tech's current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to Health In Tech's operations, results of operations, growth strategy and liquidity.

About Health In Tech

Health In Tech (Nasdaq: "HIT") is an Insurtech platform company backed by third-party AI technology, which offers a marketplace that aims to improve processes in the healthcare industry through vertical integration, process simplification, and automation.
