Disruptive Quoting Power & Personalized Ancillary Coverage with eDIYBS

Health In Tech reinvents the way brokers, groups, and TPAs approach self-funding with the [eDIYBS platform](#). Far surpassing the capabilities of a standard SaaS underwriting solution, eDIYBS streamlines and enhances the quoting process for small and level-funded health plans, prioritizing the speed and flexibility of proposal generation. eDIYBS extends a range of ancillary coverage options provided by ManhattanLife, including Critical Illness and Cancer Voluntary Coverage, Accident Indemnity Plus, Dental, Vision, Term Life, and GAP Coverage. This diverse selection allows clients to tailor their plans according to their specific needs while ensuring they receive comprehensive coverage at an affordable cost.
